Figure 1

INDEX

100

Figure 1 consists of four sub-graphs labeled (a), (b), (c), and (d). Each graph plots the rate of polymerization (P) on the vertical axis against temperature in degrees Celsius on the horizontal axis. The x-axis for all graphs ranges from 0 to 100°C. (a) shows a curve that remains near zero until approximately 40°C, then rises sharply. (b) shows a curve that begins to rise around 30°C with a more gradual slope. (c) shows a curve that remains at zero until about 50°C, followed by a very steep increase. (d) shows a curve that remains at zero until about 60°C, then rises very steeply.
